

THE CIRCUIT TRAILS

100s OF MILES
OF HAPPY

Did you know that one of America’s largest trail networks is in your backyard?

Pennsylvania and New Jersey are the proud home of the Circuit Trails, a vast regional network of hundreds of miles of multiuse trails that is growing in size each year. The Circuit connects our local communities, providing endless opportunities for recreating and commuting. What’s more, it connects to countless destinations throughout the region, including the Alliance for Watershed Education Centers—a program committed to the health of the Delaware River watershed and inspiring people and communities to sustain this interconnected, natural system.

Explore all that the Circuit Trails have to offer: the trails that comprise the network and Alliance for Watershed Education Centers are listed to the right so that you can find them easily on the map. As you get out there, remember, whether you bike it, walk it or run it, the point is—just enjoy it.

Learn more about the Circuit Trails, get involved in our advocacy efforts, or find a trail near you—at circuittrails.org.
